L4 PERFORMANCE

ABOUT L4 PERFORMANCE

Chosen by professionals, for a reason.

L4 Performance designs and manufactures ultralight tactical equipment in Tampere, Finland. Every product is developed with professional end users and built in our own workshop, from laser-cut laminates and composites to the final stitch. Our equipment is in use with military and law enforcement units in Canada, Belgium, the United States, Sweden, Finland, Denmark and Australia, and with professional end users across NATO countries.

L4 PERFORMANCE

3 PIECE LAP PANEL

l4performance.com/p37155/3-piece-lap-panel

3 piece Lap Panel is a segmented add-on armor component that can be used either as abdominal or groin armor, depending on mounting location and ride height. 3 piece construction allows better leg movement and comfort but adds weight compared to traditional 1 piece panels.

INCLUDED COMPONENTS

- 3x 3A ballistic insert
- 3x fabric cover for ballistic inserts
- Waist strap
- Direct mount click-in buckles
- Elastic lower attachment
- Velcro drop component
- Drop down webbing components for additional abdominal armor integration

COMPATIBILITY & SETUP

- Fits PALS belts
- Fits plate carriers with PALS or velcro on front
- Stand alone use possible

USE CASE

- Plate carrier: 1) drop down from placard velcro for extended abdominal coverage 2) Combine with abdominal armor for groin coverage
- Belt: 1) Mount click-in buckles to belt PALS for quick release and weight transfer to hips 2) Mount over your existing belt with built in slots
- Stand alone: use included waist strap with or without a battle belt for groin coverage

SPECIFICATIONS

- Made from X-Pac (M05 variant from Cordura), Cordura laminate and Curv Tactical composite
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee on nylon, plastic and composite components

01.01.06. 3A products can be delivered only to NATO countries.

L4 PERFORMANCE

50€ PLATE CARRIER

l4performance.com/p37156/50-plate-carrier

Included Components- Front plate bag

- Rear plate bag
- Cummerbund
- Shoulder straps

Compatibility & Setup- Placards: compatible with G-hook, buckle, and Crye Precision standard placard attachment

- 6-wide PALS on front for direct pouch attachment
- Compatible with aftermarket Velcro cummerbunds and shoulder pads

Use Case- Ideal for lightweight loadouts

- Use under clothing for low profile operations
- Use under uniform jacket in the winter with separate load carriage system, belt or chest rig over outest layer, to ease layer swaps

Specifications- Fits 10×12 / SAPI Medium plates

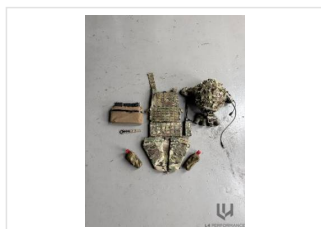

- Available only in black
- Constructed from one-wrap style material
- Weight: 250 g
- Not NIR-rated but does not glow through NODs

- Made in Finland

Lifetime guarantee

L4 PERFORMANCE

ABDOMEN PANEL

l4performance.com/p37157/abdomen-panel

Abdomen Panel for 5x11 soft armor. Increases ballistic coverage on front or back of your plate carrier.

INCLUDED COMPONENTS

- Soft armor cover with PALS
- Velcro drop down kit

COMPATIBILITY & SETUP

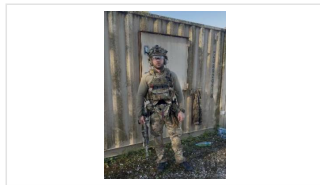

- Compatible with all plate carriers that use velcro placards or velcro plate closure on bottom (ie JPC, L4PC, ATLAS)
- Horizontal and vertical PALS on both sides.
- Attaches to your armor carrier with PALS between pouches and carrier or Velcro (pictured).
- Designed for 5x11 (does not include ballistic insert)
- Can be connected to our 3 Piece Lap Panel

USE CASE

- Plate carrier: increase ballistic coverage on abdomen area

SPECIFICATIONS

- Made from Cordura and Cordura laminate
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee

ATLAS

l4performance.com/p37158/atlas

ATLAS Plate Carrier is a heavy duty fully structural carrier designed for heaviest loads and ultimate comfort. Optimal for extended missions and maritime operations.

INCLUDED COMPONENTS

- ATLAS Front Plate Bag
- ATLAS Rear Plate Bag
- ATLAS Harness
- Structural Shoulder Pads
- Single band cummerbund
- Adhesive velcro tabs for EUD mounting
- Everything needed for comfortable armor carriage

COMPATIBILITY & SETUP

- Compatible with Crye Precision and L4 Performance back panels
- Placards: compatible with L4 Performance Tango and ATLAS Placard. Compatible with aftermarket height adjustable placards
- Direct PALS pouch and placard mounting optimal for maritime operations
- Full composite frame allows superior dry weight and water outflow

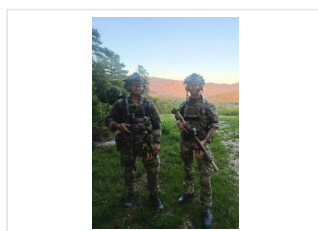

USE CASE

- For extended use and medium to heavy loads with or without rucks
- Maritime operations

SPECIFICATIONS

- Made from Curv Tactical composite with laminated camo skin, X-pac and Cordura laminate
- NIR-compliant materials
- Made in Finland

- 10 Year guarantee
- Articulating shoulders allow optimal load distribution and comfort with and without layers for all body types.
- Internal EUD tray accepts up to 20x11cm devices.
- Weight 940g (medium carrier with shoulder pads, tubes and cummerbund)
- Loop velcro for pads and side armor on inner side of harness arms and back (no pads included)
- Optional internal composite wings on front plate bag allow mounting magazines, IFAK, communication equipment or hydration under them while layering a pouch on top
- Wing version: cummerbund tube location allows better access to prime PALS real estate on front without tubes making gaps or adding bulk
- Includes everything needed to run the carrier

ATLAS FRONT PLATE BAG

l4performance.com/p37189/atlas-front-plate-bag

ATLAS front plate bag without internal wings.

INCLUDED COMPONENTS

- Front plate bag
- Adhesive velcro tabs for EUD
- First Spear Tube shoulder quick release

COMPATIBILITY & SETUP

- Plate carriers: ATLAS, Maritime L4PC, Crye Precision AVS, JPC
- Placards: ATLAS placard, Adaptive Rig System Tango, Height adjustable placards

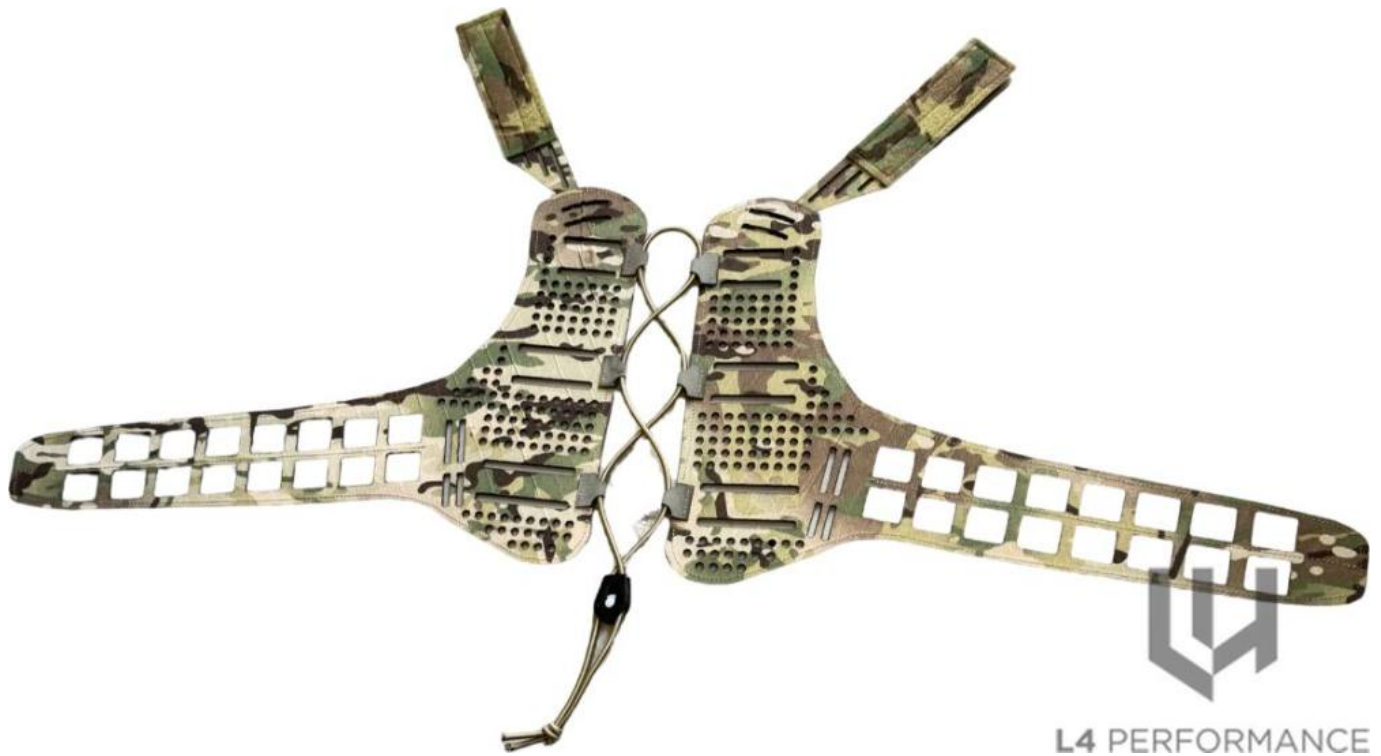

USE CASE

- Start an ATLAS build component by component
- Upgrade your current carrier with low profile integrated EUD tray and articulating shoulder straps

SPECIFICATIONS

- Fully composite frame
- Articulating shoulders
- Built in EUD tray

- Side release buckle and tube compatible
- Shoulder quick release included
- Made from Curv Tactical composite
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee

ATLAS HARNESS

l4performance.com/p37192/atlas-harness

Structural harness for L4 ATLAS plate carrier

INCLUDED COMPONENTS

- ATLAS Harness
- Structural shoulder straps
- Single band cummerbund
- ATLAS attachment kit

COMPATIBILITY & SETUP

- Compatible with L4PC, ATLAS, Universal Harness Adapter and Turtle Rear Bag Kit
- Cummerbunds: Crye Precision 2-band, L4PC Structural Cummerbund, single band cummerbunds

SIZING

T-shirt size: S-M: Harness size: S

T-shirt size: M-L: Harness size: M

T-shirt size: L-XXL: Harness size: L

USE CASE

- Plate carrier: add load bearing capacity and comfort for extended missions and heavy loads

SPECIFICATIONS

- Weight: 234g
- Thickness: 2mm
- Made from Curv Tactical composite
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee
- Loop lined inner side for pads and soft armor
- Articulating shoulder straps

ATLAS REAR PLATE BAG

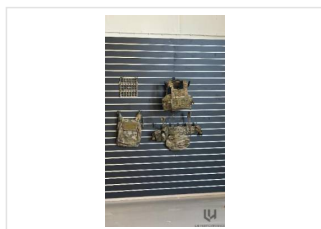

l4performance.com/p37193/atlas-rear-plate-bag

ATLAS plate carrier rear plate bag is a light weight composite plate bag with built in extending evacuating handle.

Compatible with ATLAS Harness.

L4 PERFORMANCE

BEAVER TAIL ARMOR

l4performance.com/p37130/beaver-tail-armor

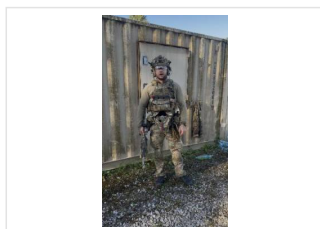

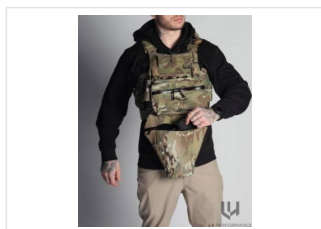

BTA is a ballistic sitting pad / lower armor that attaches to your battle belt with velcro. Compatible with both velcro orientations. Comes with non-ballistic closed cell foam insert. Optional 3A insert available.

Two BTAs can be attached together for a folding setup and longer lower protection.

01.01.06. 3A products can be delivered only to NATO countries

L4 PERFORMANCE

DUMP LAP PANEL

l4performance.com/p37159/dump-lap-panel

Dump Lap Panel features a low profile internal stretch pouch that can be used as a dump pouch, general purpose or to store specific items with velcro inserts.

INCLUDED COMPONENTS

- Dump Lap Panel
- Removable elastic insert

COMPATIBILITY & SETUP

USE CASE

- Add ballistic coverage below your front plate bag
- Use Dump Lap Panel as a dump pouch, storage for bangs or as a general purpose pouch

SPECIFICATIONS

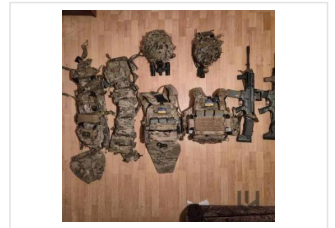

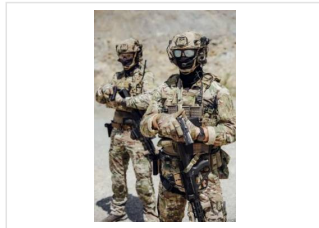

- Weight: 500 g with 3A insert
- Made from stretch fabric + X-pac or Cordura laminate
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee
- Ballistic compartment next to body has a small inner

- pouch ie for car keys
- Optional 3A insert

01.01.06. 3A products can be delivered only to NATO countries

L4 PERFORMANCE

L4PC FRONT PLATE BAG

l4performance.com/p371111/l4pc-front-plate-bag

Maritime L4PC Front Plate Bag is AVS compatible as standard. Integrated phone mount (Patent Pending) is built to the frame of the carrier and produces a slick front so that EUD does not interfere with magazines placed below it.

INCLUDED COMPONENTS

- Maritime L4PC Front Plate Bag
- Shock cord for PTT mounting
- Cord for limiting how much EUD tray opens
- Adhesive velcro for EUD
- Removable side release buckles for placards

Compatibility & Setup:- Plate carriers: Crye Precision JPC, AVS and L4 Performance L4PC, ATLAS. L4PC front plate bag is compatible with most other carriers also as long as they accept velcro shoulder straps and velcro/tube/buckle cummerbunds

- EUD: Phone mount 100x160mm or smaller. Larger ones will fit in a pinch but are not optimal
- FS Tubes: internal attachment points
- Placards: Crye Precision, Swift Clip, G-hook, ATLAS and L4 compatible

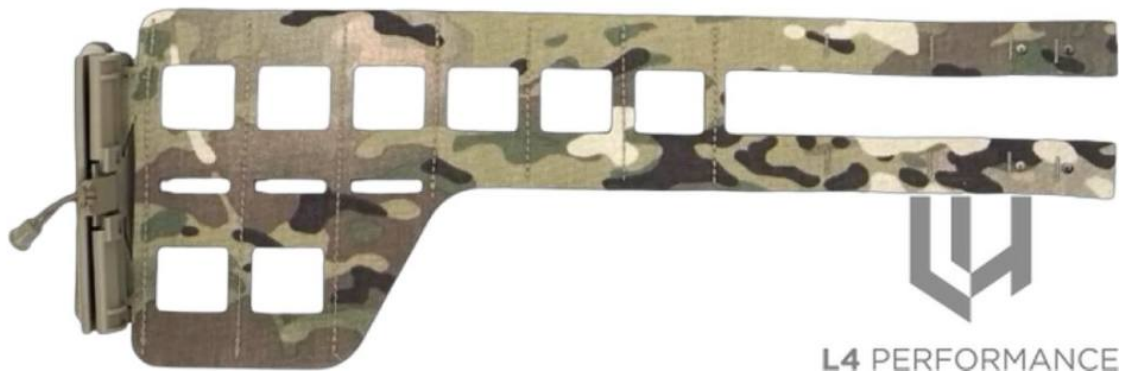

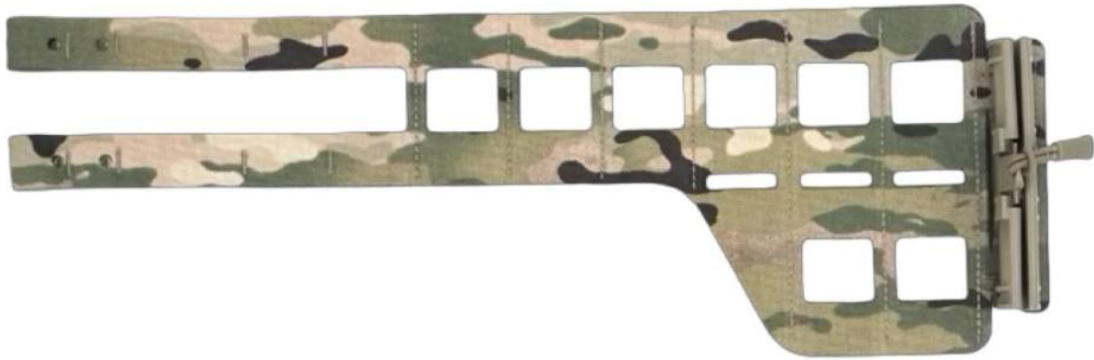

- Harness: Crye Precision AVS and L4 Performance L4PC Harness + ATLAS compatible
- PALS: pouches and placards can be direct mounted to frontal lower PALS: optimal for maritime operations

Use Case- Start your L4PC build piece by piece

- Upgrade your current plate carrier with harness compatibility, low profile EUD tray and wide placard compatibility

SPECIFICATIONS

- Weight: 276g
- Made from Cordura laminate and Curv Tactical Composite
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee
- Internal PTT attachment points
- Slits inside plate bag allow cable routing without snag hazard
- Curv Tactical composite frame
- Shoulder straps are compatible with 2" First Spear Tubes, front lower sides with 4" First Spear Tubes

L4PC STRUCTURAL CUMMERBUND

l4performance.com/p37113/l4pc-structural-cummerbund

UPDATE: From 12.09.2026 on the cummerbund comes without FS Tubes to improve availability for customers

L4PC Structural Cummerbund is a composite reinforced cummerbund with L4 Performance / Crye Precision standard rear attachment and First Spear Tube front attachment.

INCLUDED COMPONENTS

- Structural cummerbund main components to left and right hand side
- Elastic cord for rear attachment
- Flat cord lock for fast size adjustment
- FS Tubes for frontal mounting are not included: use 4" First Spear tubes for optimal fitment

COMPATIBILITY & SETUP

- Compatible with rear plate bags of Crye Precision JPC, SPC, AVS, JPC-R + L4 Performance Maritime L4PC
- Compatible with any front plate bag with 1) internal tube mounting points, 2) tube compatible placard (L4

- placards) or 3) tube adapter
- Fits 33–45 inch chest

USE CASE

- Plate carrier: use structural cummerbund on your plate carrier for fast quick detach functionality and increased load carriage capability
- Unique L-shaped tube attachment allows pouches to ride closer to body, decreasing experienced bulk on front of cummerbund attached pouches

SPECIFICATIONS

- Weight: 252g with FS tubes
- Made from Cordura laminate and Curv Tactical composite
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee

LOWER BACK ARMOR POUCH (LBA)

l4performance.com/p37161/lower-back-armor-pouch-lba

LBA is an armor pouch for 5x11 soft armor. It is designed to protect your lower back between rear plate and ballistic belt. The pouch attaches to velcro in your rear plate bag.

No armor included.

MARITIME L4PC

l4performance.com/p37109/maritime-l4pc

Updated version of our legacy L4PC plate carrier with less weight and more functions. Medium to heavy load structural plate carrier.

FEATURES

- Integrated low profile EUD mount
- PTT attachment points
- Evac mechanism on rear plate bag: 1. lower part attaches to users belt 2. by pulling the evac handle the webbing releases 3. person dragging the user can stay in upright position, allowing easier dragging and better situational awareness 5. user will not choke to plate carrier as the force will be applied on the pants belt
- Laser cut holes allow fast water outflow
- Structural cummerbund with FS Tube closure
- Structural frame on front and rear bag for optimal load transfer
- Structural shoulder pads
- Accepts PALS or velcro side armor pouches ie Triangle

INCLUDED COMPONENTS

- Maritime L4PC Front Plate Bag
- Maritime L4PC Rear Plate Bag
- L4PC Structural Cummerbund
- Structural Shoulder Pads
- Shoulder Tube Quick Release
- Velcro adhesive for EUDs
- Female quick release buckles for Swift Clip placards

COMPATIBILITY & SETUP

- Harness: Compatible with Crye Precision AVS harness (not included) and L4 Harness
- Placards: Crye Precision placards, G-hook and buckle (swift

clip) placards

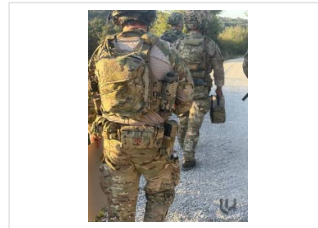

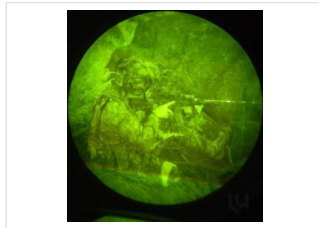

- Back Panels: Accepts Crye Precision and & L4 Performance back panels
- Frontal PALS allows securing pouches and hard mounting placards directly to front plate bag: optimal for maritime operations
- Admin pouches or dedicated molded EUD mounts can be used over PALS on EUD tray

USE CASE

- Choose for medium to heavy loads (+5kg)
- Add plate carrier harness for improved comfort on extended missions

SPECIFICATIONS

- Made from Cordura laminate and Curv Tactical composite
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee

MARITIME L4PC REAR PLATE BAG

l4performance.com/p37112/maritime-l4pc-rear-plate-bag

Maritime L4PC Rear Plate Bag is a AVS compatible structural rear plate bag that includes a internal expanding evacuation strap.

INCLUDED COMPONENTS

- Rear plate bag with internal evacuation strap and back panel zippers

COMPATIBILITY & SETUP

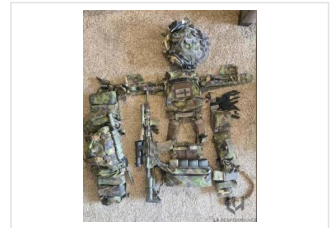

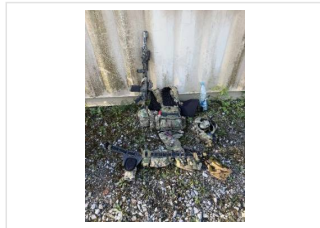

- Compatible with Crye Precision AVS, JPC, SPC, JPC-R & L4 Performance L4PC, ATLAS
- Back panel zipper is Crye Precision / L4 Performance standard: fits Crye and L4 back panels. UCAS panels have a longer zipper which you can secure with our Zipper Clip or a piece of paracord
- Cumberbund compatibility: L4 Performance / Crye Precision standard rear attachment
- Compatible with L4 and Crye plate carrier harness
- Elastic sides accept plates with different thicknesses

USE CASE

- Plate carrier: Replace your old rear plate bag for reduced weight and increased functionality

SPECIFICATIONS

- Made from 500/500d Cordura laminate
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee
- Medium size fits SAPI M sized armor, Large fits SAPI L

STRUCTURAL SHOULDER PADS

l4performance.com/p37110/structural-shoulder-pads

Will fit plate carriers with velcro on shoulder straps ie JPC.

Onewrap horizontal straps allow securing pc straps + ease cable, hydration and antenna management. Top of the structural shoulder pads is loop velcro and bottom is premium stretch that works like loop velcro which allows 1) using one-wrap to provide more cable securing points 2) allow adding extra velcro padding ie Crye AVS Padding for missions when weight of the carrier gets extremely heavy.

Structural shoulder pads have a composite sheet on top of padding to distribute weight to a wider area. Best add-on component for those who want to improve their issued kit or those who experience stress on shoulders when wearing armor for extended periods.

INCLUDED COMPONENTS

- 2x Shoulder pad

COMPATIBILITY & SETUP

- Compatible with plate carriers that have hook velcro on bottom of shoulder straps ie L4PC, ATLAS, Crye

Precision JPC, AVS, SPC, JPC-R

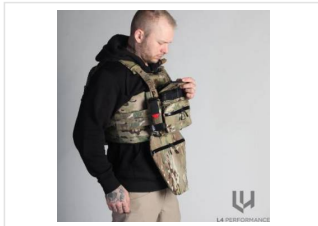

- Remove old shoulder pads, attach new ones to hook velcro on shoulder straps
- Elastic or One-Wrap cable / hose routing on top

USE CASE

- Plate carrier: Replace your standard shoulder pads with structural ones to increase wear comfort

SPECIFICATIONS

- Weight: 42 g / 1.48 oz
- Made from Cordura, Velcro, 4-way stretch, closed cell foam and Curv Tactical composite
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee

TRIANGLE SIDE ARMOR

l4performance.com/p37166/triangle-side-armor

Triangle Side Armor offers wider than standard soft armor coverage.

INCLUDED COMPONENTS

- 2x Triangle Side Armor covers with velcro attachment
- 2x Triangle Side Armor 3A inserts

COMPATIBILITY & SETUP

- Compatible with cummerbunds that have loop velcro next to body ie L4PC Structural Cummerbund
- Can be used taller end on front or back

USE CASE

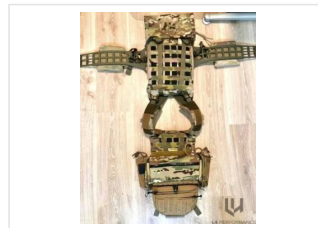

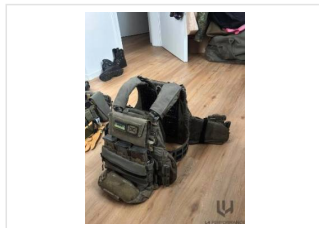

- Plate carrier: increase soft armor coverage

SPECIFICATIONS: COVER

- Made from X-Pac
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee

INSERT

- Premium lightweight, thin hybrid IIIA-panel made of both UD aramid and UHMWPE
- Superior weight-performance ratio
- Made in Sweden
- 01.01.06. 3A products can be delivered only to NATO countries

UNIVERSAL HARNESS ADAPTER

l4performance.com/p37152/universal-harness-adapter

Universal Harness Adapter transforms your issued plate carrier harness compatible for increased comfort and functionality.

Requirements from carrier- Min 4 columns of pals on front plate bag

- Min 4 columns of pals on rear plate bag
- Velcro shoulder straps: front and rear straps need to have hook velcro on bottom or rear square ring

COMPATIBLE HARNESSES

- L4 harness
- ATLAS harness
- Crye Precision AVS harness

COMPATIBLE PLATE CARRIERS

- Crye JPC, SPC
- Shaw ARC
- Ferro FCPC
- Spiritus LV119, 120
- MOBAST

- And many others

INCLUDED COMPONENTS

- Front adapter
- Rear adapter
- 4x webbing mounts
- 2x shoulder mounts
- Harness front and rear tabs

SPECIFICATIONS:- WEIGHT: 300G

- Made from Curv Tactical composite
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee

Optional harness includes structural shoulder pads and a single band cummerbund.

ADAPTIVE RIG SYSTEM (ARS) ALPHA MODULE

l4performance.com/p37119/adaptive-rig-system-ars-alpha-module

1x Alpha module = placard for plate carrier

1x Alpha + 1x Bravo module = micro chest rig

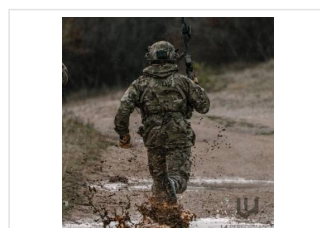

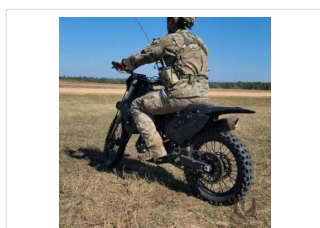

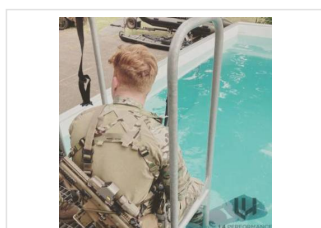

2x Alpha + 1x Bravo module = split chest rig

3x Alpha + 1x Bravo module = LBE or a belt kit

4x Alpha + 1x Bravo module = harness or a belt

The Alpha module works with all aftermarket shoulder straps that use 1" buckles which is the industry standard. FS Tube compatible.

Lifetime guarantee. Made from Cordura laminate. NIR-compliant materials.

ADAPTIVE RIG SYSTEM (ARS) BRAVO MODULE

l4performance.com/p37120/adaptive-rig-system-ars-bravo-module

A thin, lightweight chest rig harness designed for maximum comfort, even when worn with rucks. Highly adjustable yoke, backstrap, and rear straps provide a secure fit and versatile use. Alternative rear straps are included for added flexibility.

INCLUDED COMPONENTS

ARS Bravo module (yoke/harness)

Elastic backstrap

Elastic rear straps

Non-elastic rear straps

Side release and other buckles required for configuring the straps

COMPATIBILITY & SETUP

Attaches to Adaptive Rig System modules, The PUZZLE, and WCSIG Rig

Compatible with most aftermarket chest rigs featuring 1"

side release buckles (Crye Precision, Ferro Concepts, Spiritus Systems, and others)

Laser-cut PALS on harness for routing cables, hydro, or attaching PTTs

Elastic and non-elastic rear straps can be attached in multiple positions, allowing flexible setup from micro rigs to full LBE systems

USE CASE

Perfect for a wide range of chest rig applications

Works under rucks and backpacks

SPECIFICATIONS

Thin, lightweight construction

Highly adjustable for custom fit

NIR-compliant materials

Made in Finland

Lifetime guarantee

L4 PERFORMANCE

ADAPTIVE RIG SYSTEM (ARS) ECHO MODULE / MAP POUCH

l4performance.com/p37121/adaptive-rig-system-ars-echo-module-map-pouch

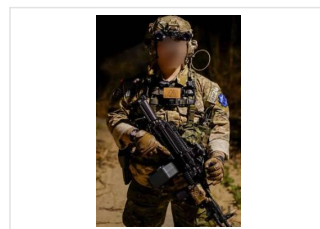

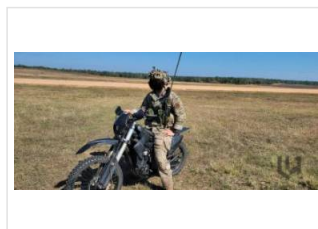

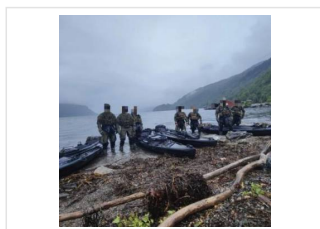

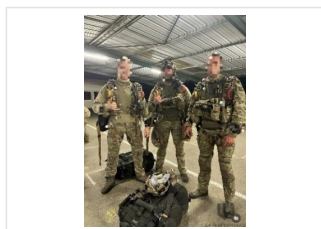

Zippered map/general pouch that attaches to ARS Alpha or Tango module (or any other rig that can be used as a placard) with loop velcro.

Material: X-pac.

NIR-compliant.

L4 PERFORMANCE

ADAPTIVE RIG SYSTEM (ARS) SPLIT RIG SETUP

l4performance.com/p37122/adaptive-rig-system-ars-split-rig-setup

Placard, split-front and micro chest rig in one package.

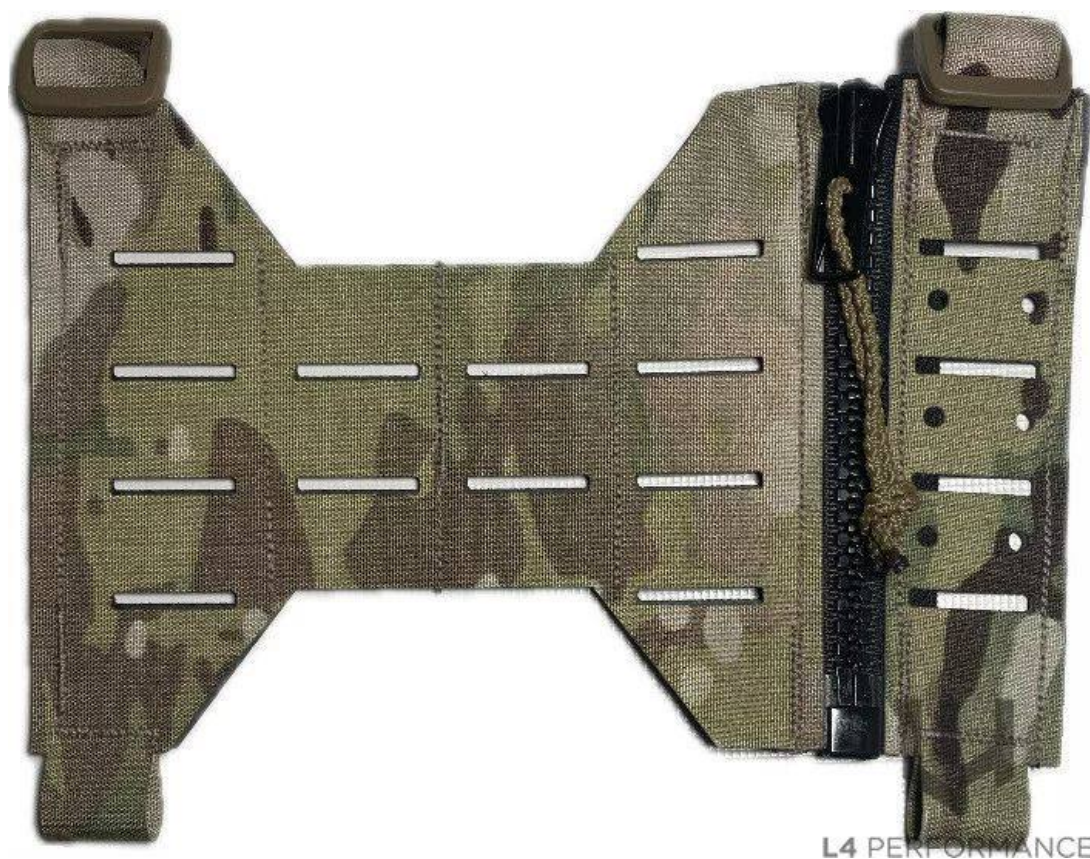

2x ARS Alpha module (6-wide pals placard)

1x ARS Bravo module (yoke)

These modules allow you to build a split rig, micro rig, pc placard or a pc split rig. Add one Alpha module or our CBRN buttpack for harness setup.

Eodfish review

NIR-compliant materials.

ADAPTIVE RIG SYSTEM ATAK PANEL

l4performance.com/p37132/adaptive-rig-system-atak-panel

Split-front chest rig ATAK panel. Compatible with Adaptive Rig System and WCSIG.

Unique zipper quick detachment.

PTT mounting on the smaller side, next to ATAK.

ADAPTIVE RIG SYSTEM CBRN BUTTPACK

l4performance.com/p37123/adaptive-rig-system-cbrn-buttpack

Buttpack with two roll-top openings on the side and a zipper pouch on top. Can be used as a ARS module. With ARS backstrap it transforms to a shoulderbag or a waistbag.

Designed to fit a gas mask + cbrn suit or misc items such as clothing or sleeping bag)

6 row wide molle/pals that allows attaching the pack to molle/pals with malice clips.

Newest version is made from X-pac. Splash proof.

Includes

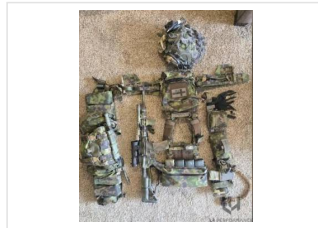

Removable buckles

Shoulder / waist strap

NIR-compliant materials.

Lifetime guarantee

Weight 290 g with shoulder strap

ADAPTIVE RIG SYSTEM QUAD

l4performance.com/p37124/adaptive-rig-system-quad

Adaptive Rig System Quad module can be used as

- quad placard on plate carrier (velcro on back)
- chest rig (add adaptive rig system bravo module)
- split front chest rig (adaptive rig system bravo + 2x Quad modules)

Quad stretch insert not included. Reindexing AK mags is easiest when done from one side to another, reindexing middle mags is not as easy due to banana-shape of AK magazines.

Backside has hook velcro with loop backer and column of molle per side for SOCP knife or similar item.

Shock cord & plastic pull tabs included.

Removable buckles included.

FS Tube compatible.

NIR-compliant materials.

ADAPTIVE RIG SYSTEM RBT SPECIAL BUNDLE

l4performance.com/p37133/adaptive-rig-system-rbt-special-bundle

Split-front chest rig setup with full pouch set that transforms to a micro rig. Tango modules can be used as a placard.

PACKAGE INCLUDES

1x Harness

2x Base modules (total 6 integrated mag pouches)

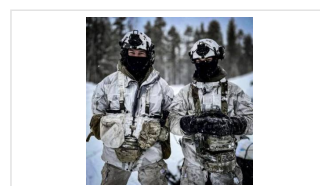

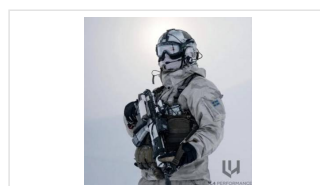

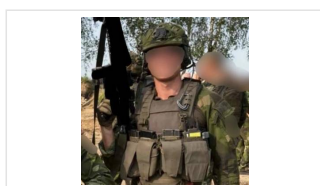

2x M4/AK double mag pouch

2x large gp

2x elastic triple M4 insert

Customization straps for adjustable front, elastic and rigid rear straps, back strap, mag height adjusters, mag slot dividers for different mags, removable elastic GP inserts, polymer pull tabs and shock cord

NIR-compliant materials. Lifetime guarantee.

ADAPTIVE RIG SYSTEM SPLIT RIG SETUP WITH MAG SLOTS

l4performance.com/p37125/adaptive-rig-system-split-rig-setup-with-mag-slots

A modular chest rig setup built around the Adaptive Rig System, combining the ARS Bravo harness with two ARS Tango modules. Configure it as a split rig, wide chest rig, or compact micro rig—adapting to your loadout and mission requirements.

Hook Velcro backing allows the modules to be used as placards or to mount additional pouches between the rig and body (e.g. L4 Echo Module / Map pouch).

INCLUDED COMPONENTS

1× ARS Bravo module (harness)

2× ARS Tango modules (MOLLE panels with integrated mag slots)

COMPATIBILITY & SETUP

Configurable as: Split rig (6 rifle magazines) Wide chest rig (6 rifle magazines) Micro rig (3 rifle magazines)

Compatible with the Adaptive Rig System ecosystem and most placard-based setups

Laser-cut PALS and hook Velcro backing allow direct attachment to plate carriers or layering with pouches

Tango modules can be attached side-by-side or stacked using MALICE clips

Includes all required buckles, side straps, and hardware for full configuration (via Bravo and Tango modules)

Tango modules feature loop Velcro-lined internal compartments

Includes adjustable side walls and ride height adjusters for each Tango module, supporting radios, magazines, water bottles, and similar items (fits 5.56, 7.62, and .308 magazines, among others)

Adjustable walls can be removed and replaced with L4 elastic

mag inserts (choose from the drop-down menu)

Includes shock cords and plastic pull tabs for secure retention of up to six magazines

USE CASE

Highly adaptable chest rig system for a wide range of loadouts

Scalable configuration from a compact micro rig to a full-sized chest rig

Works under rucks and backpacks

SPECIFICATIONS

Tango modules are six PALS columns wide

Loop Velcro interior for inserts (optional elastic mag inserts available, choose from the drop-down menu)

Internal compartments are adjustable with side walls

Adjustable ride height for magazines and equipment

Accepts 5.56, 7.62, .308 magazines, radios, water bottles, and similar items

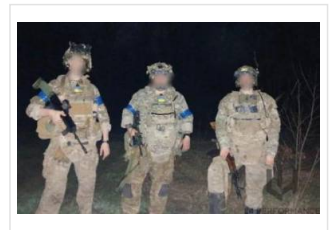

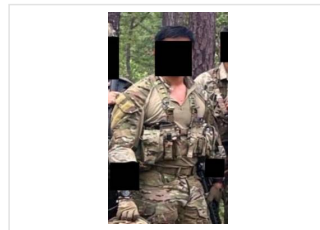

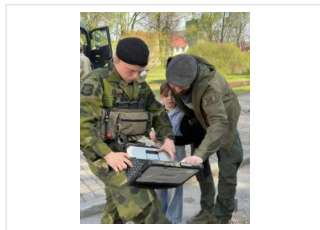

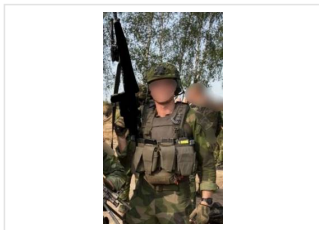

PALS webbing on both sides for mounting additional pouches

Removable shock cord with plastic pull tabs

NIR-compliant materials

Made in Finland

Lifetime guarantee

ADAPTIVE RIG SYSTEM TANGO MODULE

l4performance.com/p37126/adaptive-rig-system-tango-module

Adaptive Rig System Tango module is a 6 PALS column wide component that works both as a placard or chest rig. Internal velcro kangaroo slot for inserts allow using the module with different calibers.

INCLUDED COMPONENTS

- 1x Adaptive Rig System Tango module
- 2x Adjustable side walls to fit different magazine sizes
- 3x Adjustable ride height tabs to fit different height magazines from 30rd AK to 10rd AICS magazines
- 3x Shock cord for retention
- 3x Plastic click pull tabs, optimal for both straight and curved magazines
- Click-in buckles for plate carrier mounting or chest rig build customization
- Adaptive Rig System Side Strap for split-front chest rig frontal adjustment, back strap extension or customization

COMPATIBILITY & SETUP

- Chest Rigs: Adaptive Rig System product family
- Next to body PALS allows hard mounting the component to any PALS surface with MALICE clips, one-wrap or zip ties

USE CASE

- Plate carrier: use Adaptive Rig System Tango as a placard
- Belt: can be direct mounted to PALS
- Chest rig: can be used as a micro rig, wide chest rig or a split-front chest rig
- Components can be joined with included removable buckles and MALICE clips

SPECIFICATIONS

- Made from Cordura Laminate
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee
- PALS on 5 sides
- Taller than US standard walls provide better multi caliber fitment ie 3x 7,62x39 AK magazines

ELASTIC MAG INSERT

l4performance.com/p37134/elastic-mag-insert

Elastic insert for M4/AK/308 mags. Hook/hook velcro allows attaching the insert to Adaptive Rig System Tango and Quad modules.

Does not fit Spinitus Systems and others as the standard sizing of placards is smaller than L4 and do not fit ie 3x 7.62x39 AK mags

POCKET-SIZED CHEST RIG

l4performance.com/p37135/pocket-sized-chest-rig

Packs into it's own pocket.

ACCEPTS

3x M4/AK-sized mags

1x Baofeng radio-sized item

1x M18 smoke-sized item

Or

5x AK mags

7x m4 mags

Great for storing extra mags or mission essential items on a backpack.

FR coated. NIR-compliant.

PUZZLE CHEST RIG KIT

l4performance.com/p37182/puzzle-chest-rig-kit

A highly modular chest rig platform built around The PUZZLE system, allowing MOLLE pouches to be attached directly to each other and scaled to mission needs. Configure your setup from a compact micro rig to a full-width or split-front chest rig—simply add pouches.

Kit includes the Adaptive Rig System Bravo module for a complete harness solution, making it ready for immediate setup

INCLUDED COMPONENTS

PUZZLE base components (for connecting 8 pouches)

ARS Bravo module (yoke/harness)

COMPATIBILITY & SETUP

Compatible with most shoulder straps using 1" buckles (including ARS Bravo module provided in the kit)

ARS Bravo module includes shoulder straps, backstrap, and additional rear straps

Compatible with Adaptive Rig System ecosystem

Allows direct pouch-to-pouch attachment (no traditional base needed)

Included components allow attaching up to 8 pouches together

Pouches can be attached on both sides

Use multiple sets for expanded setups (split rigs, larger rigs, or belt kits)

2024 update: compatible with split-bar tube systems (First Spear, 2M ROC)

Supports optional add-ons such as PUZZLE zipper modules and PUZZLE Velcro components

USE CASE

Fully modular chest rig platform adaptable to mission-specific loadouts

Scalable from micro rigs to full chest rigs or split-front configurations

Works with rucks and backpacks

Ideal for users who want maximum flexibility without fixed layouts

SPECIFICATIONS

Modular PUZZLE system for direct pouch integration

Compatible with a wide range of aftermarket pouches and components

NIR-compliant materials

Made in Finland

Lifetime guarantee

L4 PERFORMANCE

PUZZLE VELCRO MODULE

l4performance.com/p37183/puzzle-velcro-module

PUZZLE velcro module transforms your PUZZLE setup to a placard or makes your rig dangler compatible. Hook velcro with 6-wide molle and loop backer.

The module can be shortened by cutting columns (not rows) off by leaving 1cm extra fabric to the side and burning the laminate edge after cutting.

NIR-compliant materials.

L4 PERFORMANCE

THE PUZZLE

l4performance.com/p37184/the-puzzle

Made in USA Puzzles available from Tracer Tactical

A super modular chest rig base kit. Just add the pouches, shoulder straps and a backstrap. Compatible with all shoulder straps that have 1" buckles, including our ARS Bravo module which includes both shoulder straps and the backstrap.

The included components allow attaching 5 pouches to each other. Order 2 sets for more pouches or a split rig build, 3 sets or more for a belt kit build.

Compatible with Adaptive Rig System components and molle to velcro adapter.

NIR-compliant materials.

SOLDIER SYSTEMS ARTICLE: ARTICLE

EPIG GROUP REVIEW

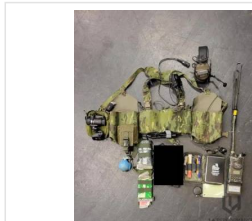

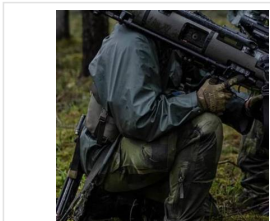

THE PUZZLE ZIPPER COMPONENT

l4performance.com/p37185/the-puzzle-zipper-component

Allows attaching pouches to each other with a zipper.
Perfect for a split front chest rig build.

NIR-compliant materials.

WCSIG RIG

l4performance.com/p37186/wcsig-rig

WCSIG is a fixed pouch chest rig that is made from high quality mil-spec materials in Finland.

The chest rig is designed to carry the essentials: ammo, water and comms.

4x double mag pouch (each slot fits 2x5.56, 2x7.62x39, 1x.308, radio)

2x radio pouch (will also fit 1l nalgene or a pistol with a IWB holster)

2x general purpose pouch (GP will fit up to 6x m4 mags each)

– molle on shoulder straps, under mag pouches and on the side of the GP pouches

Chest rig, pull-tabs, shoulder straps and a back strap are all included.

Shoulder straps are attached with 1" side release buckles and can be changed to any after market straps, including our Adaptive Rig System Bravo.

The base of the rig is laser cut from two pieces of cordura

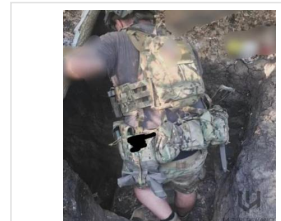

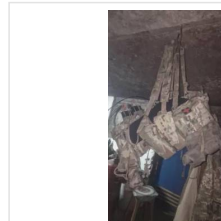

laminate. While laminate is twice as expensive as regular cordura (of which most rigs are made from), it reduces the amount of seams which adds durability, reduces manufacturing time and makes the affordable pricing possible. The shock cords wear out after years of use but they are replaceable and the rig will last from father to son.

Upgrade your WCSIG with our Adaptive Rig System Bravo yoke, L4 x EURMED IFAK insert, TQ pouch and frag pouches

ARS compatible

NIR compliant materials.

Lifetime guarantee

LOAD CARRIAGE ASSEMBLY (LCA)

l4performance.com/p37116/load-carriage-assembly-lca

LCA structured belt

LCA removable padding

LCA yoke

PROPERTIES

- removable padding with anchoring points
- inner loop velcro
- PALS surface with loop allows attaching pouches with molle or onewrap
- removable shock cord routed to the frame for tightening pouches close to body
- AustriAlpin polymer cobra buckle
- composite frame

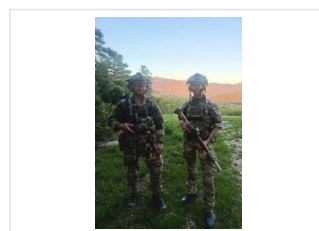

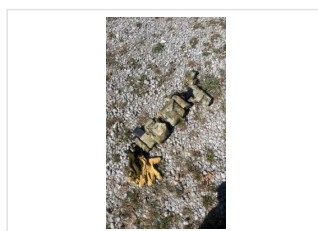

Choose the widest option according to your waist size. Size in cm refers to width of the frame & padding. In addition to this the webbing straps add +25cm per side.

Load Carriage Assembly is a belt + harness system that allows carrying light to heavy loads as stand alone or with armor. Unique layering system allows running outer frame

only when wearing multiple layers of clothes (ie winter) which would normally push pouches to the back, making them difficult to reach. Removable retention loops for extra pouch retention. Inner side (with frame) accepts velcro padding (ie Crye Precision) for optimizing fitment to the user.

NIR-compliant materials.

3A insert can be delivered only to NATO countries

SUPER MODULAR BELT

l4performance.com/p37187/super-modular-belt

Super Modular Belt is a modular, structural two piece belt. It's designed for light loads (ie sidearm, fast mags, dump, IFAK). Modularity allows running modules together or separately - for example only mags on weak side - or adjusting the width according to seasonal demands (additional layers in cold environment)

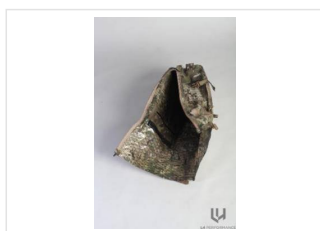

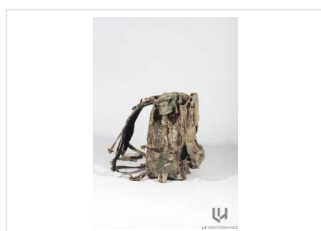

PACKAGE INCLUDES

- inner belt
- main belt with Cobra buckle
- 3 structural modules

If between sizes, go for the bigger one. Excess webbing is easy to cut

L4 PERFORMANCE

L4 3DAP

l4performance.com/p37128/l4-3dap

Roll top 3 day assault pack.

Up to 50 liters (+ back panel)

Compatible with Crye Precision back panels.

2x 1 liter nalgene / canteen pouches

Molle on sides and back

Signal panel / skrim pouch on bottom

Full length zipper

Molle lined interior

Internal dual Curv frame

Bladder hose / cable opening to main compartment

Compatible with velcro padding (shown with black aftermarket CP padding)

Shown with Crye Precision zip on back panel (No back panel included)

Alternative closure attachment on sides.

Includes extra straps with click in buckles ("ARS buckles") that can be used for carrier integration.

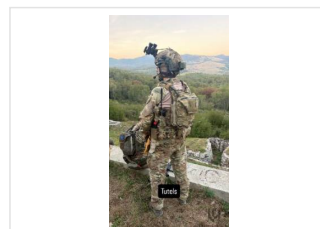

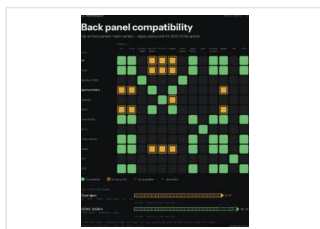

Weight 1,1kg / 38oz

Designed for sub-20kg loads

Made from X-pac. NIR-compliant. Made in Finland.

L4 PERFORMANCE

TURTLE BACK PANEL

l4performance.com/p37114/turtle-back-panel

Turtle – lightweight, slim back panel. This is not a assault/breaching panel for tools and bangs but extra storage space for all other missions. Comfortable to use with a ruck when empty but expands when needed. – Maritime L4PC & 3DAP compatible (crye size zippers) – bladder slot (wide 3l) – opening for hose and cables – zippered small pouch on flap for batteries and misc – external shock cord can fit also a jacket outside the pack Future accessories include – direct pc mounting – stand alone back pack straps Attach to PALS with aftermarket crye zipper to molle adapter Weight: 200g Capacity: 10l (main compartment) Real Tree camo is not NIR-compliant

L4 PERFORMANCE

TURTLE BACKPACK STRAPS

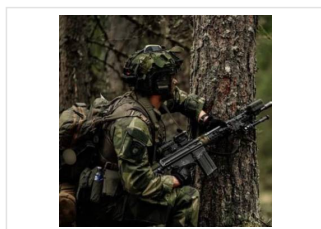

l4performance.com/p37195/turtle-backpack-straps

Turn your Turtle back panel into a backpack with this kit.

Slim, thin shoulder straps for when you want to carry the back panel as a day pack. It doesn't transform the back panel to excellent backpack but allows you to carry big bulky radios and such easily.

L4 PERFORMANCE

308 DOUBLE MAG POUCH

l4performance.com/p37167/308-double-mag-pouch

Flapped 308 mag pouch.

Fits

1-2 20rd 308

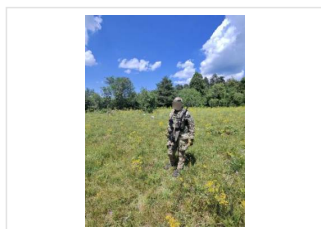

Or

1-3 30rd 556

Composite stiffener, laser cut molle straps, rubber bead on the pull point, shock cord retention

Weight: 59g

NIR-compliant materials.

ACCESS RADIO POUCH

l4performance.com/p37168/access-radio-pouch

Access Radio Pouch is a molle/pals compatible radio pouch.

- allows battery change without removing radio from pouch
- allows access to buttons and screen with flip function
- includes L4 PTT TREE which allows PTT relocation to antenna level
- allows radio ride height adjustment
- compatible with 148, 152, 163, MPU5 and similar sized radios

Update 06/26: PTT TREE updated to gen2

BRAVER POUCH

l4performance.com/p37191/braver-pouch

PALS pouch for Braver Systems LBM.

INCLUDED COMPONENTS

- Braver LBM pouch
- Shock cord
- Pull tab

COMPATIBILITY & SETUP

- Compatible with PALS and belt mounting
- Short and tall LBM devices fit in the same pouch
- Compatible also with Baofeng UV5R sized radios or 1x M4 magazine

USE CASE

- Carry your Braver LBM on your kit
- Toggle on/off without removing device from the pouch

SPECIFICATIONS

- Weight: 34
- Made from Cordura laminate
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee

L4 PERFORMANCE

BUCKET

l4performance.com/p37169/bucket

Bucket dump pouch

Rigid structure, does not sag

Attaches around a double mag pouch

Fits 10 rifle magazines

DGP (PAIR)

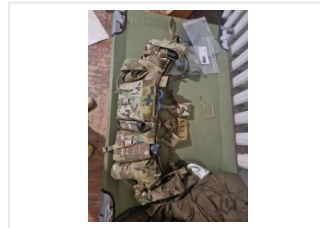

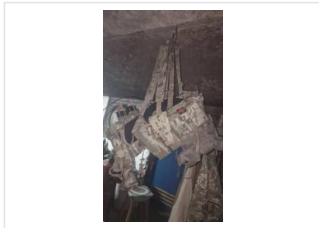

l4performance.com/p37170/dgp-pair

2x D-shaped general purpose pouches.

3-Wide PALS attachment. Internal elastic inserts for 6x6 side armor and MBITR

Includes left and right side pouches.

Aquaguard zipper, weight 94g per pouch

DOUBLE MAG POUCH, M4/AK

l4performance.com/p37171/double-mag-pouch-m4-ak

Ultralightweight double magazine pouch designed to fit both M4 and AK magazines. Features the L4 Tilt design for improved fit and accessibility with curved AK magazines, while maintaining a low-profile and secure retention.

INCLUDED COMPONENTS

Double mag pouch with tilt feature

COMPATIBILITY & SETUP

- Fits 2× M4 or 2× AK magazines
- L4 Tilt feature optimizes angle and access for AK magazines
- Shock cord retention allows adjustable tension

USE CASE

- Suitable for both M4 and AK loadouts
- Adjustable retention allows open-top functionality ie when preparing for assault
- Can be used for 1 or 2 mags. Running 1 per pouch as standard will give you the possibility to carry more when needed while keeping your profile slimmer in normal use

- Flapped double mag pouches work well as general purpose pouches and fit ie a pistol, IFAK, water, smoke
- Plate carrier: run one on your weak side cummerbund, next to the plate, for extra mags, a smoke or a water bottle
- Belt: run 1-3 per side to store magazines and to have extra space for items you are given without preparation (flare gun, drinks, smoke)
- Chest rig: run 1-6 to store magazines and miscellaneous items.

SPECIFICATIONS

- Weight: 42 g / 1.48 oz
- Composite stiffener for easy reindexing
- Shock cord retention system
- Made from X-Pac (m05 and m90 in 500D/500D laminate)
- NIR-compliant materials
- Made in Finland
- 10 Year guarantee

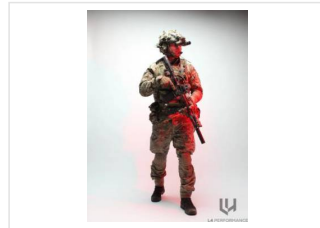

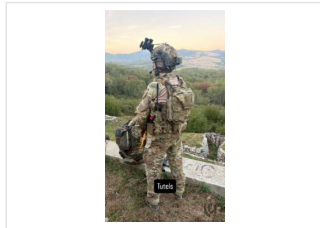

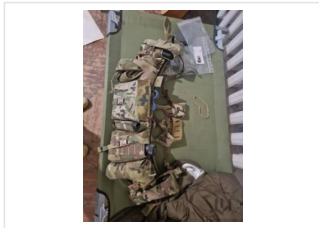

FLAT BASTARD NALGENE POUCH

l4performance.com/p37172/flat-bastard-nalgene-pouch

Nalgene pouch will fit 32oz / 1 liter nalgene. Slim when not in use. Attaches to molle or belt.

Attaches with two pals columns but when empty and flat, the pouch is 4 columns wide.

NIR-compliant & lifetime guarantee.

FRAG POUCH

l4performance.com/p37173/frag-pouch

Compact, versatile pouch designed for fragmentation grenades and similar sized items. Features a tuckable flap for both secure closed, and rapid-access open-top use.

Included Components:- Frag pouch

Compatibility & Setup:- 2 column wide PALS attachment

- Flap can be tucked in for open-top configuration
- Adjustable side retention

Use Case- Designed for fragmentation grenades and similar sized equipment

- Quick-access or secure retention depending on configuration
- Use it on your belt, plate carrier, chest rig or back panel

CAPACITY- M67 FRAG

- GHO-1 frag
- Handcuffs
- 40 mm × 46 rounds
- AICS magazine
- Dip

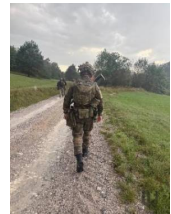

- Pack of cigarettes
- Compass

Specifications- Weight: 43 g / 1.51 oz

- NIR-compliant materials
- Made in Finland
- 10 year guarantee

L4 PERFORMANCE

LARGE GP

l4performance.com/p37174/large-gp

Lightweight large general purpose pouch. Removable stretch insert for small tall items. Ultralight and stores flat when empty.

Included Components:- Large GP pouch
– Removable elastic insert

COMPATIBILITY & SETUP

- Pouch attaches to PALS (molle)
- Width 3 or 4 PALS columns, depending on selected product variant
- Loop velcro lined interior allows attaching different velcro inserts
- Stores flat when empty
- PALS on front and sides for piggybacking ie TQ pouches on sides, or XXS GP on front for a zippered extra pouch for smaller items
- Designed to fit large items: larger than a M67 frag. For smaller items ie batteries you want to use a zippered pouch ie our XXS GP

USE CASE

- Belt: 1) back of the belt as an IFAK or stored flat empty, providing extra storage when needed 2) Run the pouch on your side(s) for bulk magazine, linked ammo or frag storage
- Plate carrier: 1) 5 or 7 o'clock as an IFAK or NOD storage 2) one on weaker side for misc items 3) 1-4 on rear plate bag as item specific "back panel"
- Chest Rig: use 1-2 on front for large items
- Backpack: extend your PALS compatible ruck storage capacity by attaching Large GP pouches directly to your ruck

Specifications:- NIR-compliant materials

- Weight 77g
- 10 year guarantee

L4 PERFORMANCE

MOLLE EYEPRO SLEEVE

l4performance.com/p37175/molle-eyepro-sleeve

Eyepro pouch that attaches between molle pouches. Composite outer wall, soft interior to protect lenses. Top closure with velcro flap.

Fits most tactical eyepro and cleaning cloth on top of the eyepro.

Pictured with ESS ICE

How to use it?

During the day tinted eyepro on, clear in case.

On night preparation tinted to nvj case, clear on.

When sleeping, clear in case.

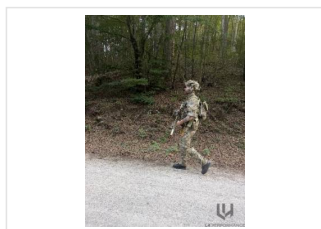

Cleaning cloth can be stored on top of the eyepro inside the case.

Case is not water or dirt proof.

NIR-compliant materials.

L4 PERFORMANCE

MOLLE SMOKE/FRAG SLEEVE

l4performance.com/p37176/molle-smoke-frag-sleeve

Allows placing smokes or grenades between molle pouches.

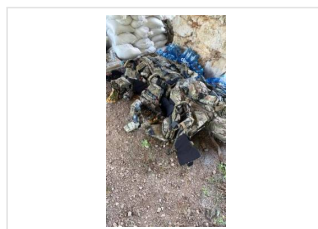

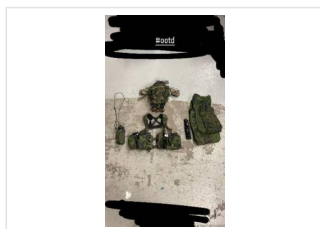

Slot for the spoon. Takes minimal space when empty.
Elastic body and tuckable velcro flap.

This is designed especially for those scenarios when someone gives you extra stuff to carry and you haven't prepared your kit for it. "Extra pouch" or if you want to utilize empty space between pals pouches.

Fits smokes and grenades from large M18 size to small m67

Weight 36grams.

NIR-compliant materials.

NALGENE BIKINI POUCH

l4performance.com/p37177/nalgene-bikini-pouch

Nalgene Bikini Pouch is designed to fit 0,5/16oz or 1liter/32oz nalgene and water purification tablets. The pouch has removable and storable paracord strap and elastic pouch for small items(purification tabs, lighter or gym locker key). Attachment to belt, PALS or over the shoulder with paracord strap.

The shoulder strap allows storing nalgene next to your skin in winter to prevent freezing. For additional freezing prevention, store the bottle upside down and route paracord inside the pouch and shock cord from both sides (last picture)

Fits a white monster also.

No nalgene bottle included. Choose a Tritan bottle so that you can put boiling water and such to it.

SOLDIER SYSTEMS ARTICLE

NIR-compliant materials.

RADIO WING POUCH

l4performance.com/p37178/radio-wing-pouch

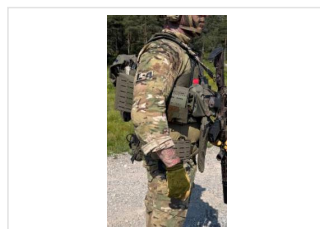

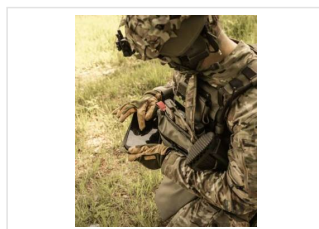

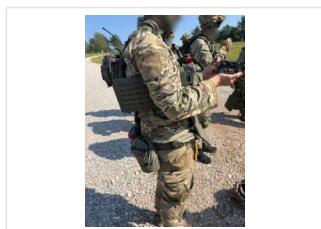

Designed for smaller radios.

Accepts everything from UV5R to 152 size.

Can be mounted to left or right side on front plate bag.

Adjustable height, elastic sides

Allows replacing the battery without removing radio from the pouch

TABLET SLIDER

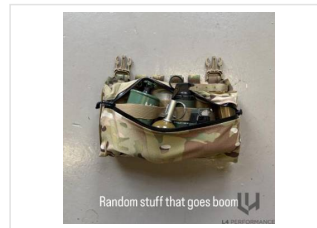

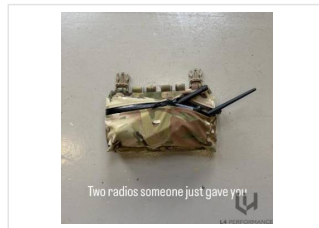

l4performance.com/p37179/tablet-slider

Tablet slider attaches to plate carrier cummerbund and allows deploying tablet devices fast.

Fits up to 230x150mm tablets with case

Device is protected with thick composite.

Device attachment with provided hook/loop and/or shock cord or screws when using a cover case.

WIDE XXS GP

l4performance.com/p37180/wide-xxs-gp

A wider version of our XXS GP, this zippered general-purpose pouch is made from 4-way stretch material. It stays flat when empty and expands when needed, providing a low-profile yet versatile storage solution.

Included Components:- Wide XXS GP pouch
- Removable stretch insert

Compatibility & Setup- 6 or 8 wide PALS attachment: Width refers to number of PALS columns. Most placards are 6-wide: choose this one if you don't have a 4 mag placard or such. Our Tangos and Quad also accepts 8-wides.

- Mounts to cummerbunds, belts, placards, plate carriers, or backpacks
- Perfect for Adaptive Rig System Tango modules
- Loop Velcro strip inside for organizing items

Use Case- Ideal for admin items, snacks, or mission-specific needs

- Holds 40 mm rounds, fragmentation grenades, flare gun with flares, distraction devices, medical items, and more
- Flexible and secure storage while keeping items accessible
- Plate carrier: 1) mount Wide XXS GP on the front of your

placard as admin / general purpose pouch 2) mount 1-3x Wide XXS GP pouches on your rear plate bag as a "back panel" for a poncho and a stripped MRE 3) use Wide XXS GP as a side armor pouch on your cummerbunds

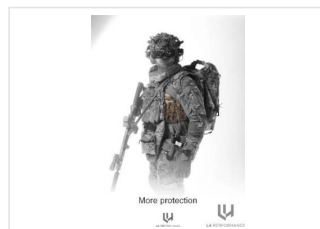

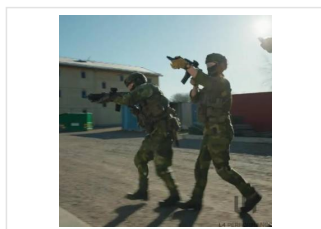

- Chest rig: use Wide XXS GP on your strong side as a general purpose pouch to keep the profile low for optimal elbow placement when shooting
- Belt: attach Wide XXS GP to your 6 o'clock as a flat GP, IFAK or extra storage: it will stay flat and unnoticeable when empty

Specifications- 4-way stretch construction

- Flat profile when empty, expands under load
- M05 fabric is less stretchy than other options
- Weight: 58 g
- NIR-compliant materials
- Made in Finland
- 10 year guarantee

L4 PERFORMANCE

XXS GP

l4performance.com/p37118/xxs-gp

Low profile elastic general purpose PALS pouch.

INCLUDED COMPONENTS

- XXS GP
- Removable elastic velcro insert

COMPATIBILITY & SETUP

- Fits small items such as batteries, keys, writing equipment, landnav kit, headlight etc
- 4 PALS columns wide
- Elastic fabric stays flat when empty but expands with items inside

USE CASE

- Belt: use XXS GP as an admin pouch on your 1-2 o'clock
- Plate carrier: 1) attach XXS GP to front of cummerbund for admin and misc 2) attach XXS GP to aftermarket lap panel with PALS on front
- Chest Rig: front or sides of a chest rig for small items: bug spray, land nav, snacks
- Pouches: attach XXS GP to pouches or backpacks with

PALS ie for battery storage

SPECIFICATIONS

- Weight 59g
- NIR-compliant materials.
- 10 year guarantee

GP MEDICAL INSERT

l4performance.com/p37138/gp-medical-insert

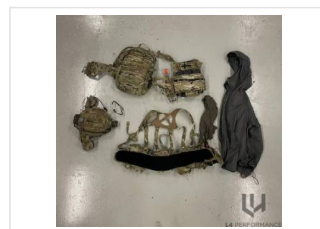

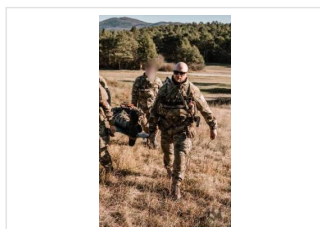

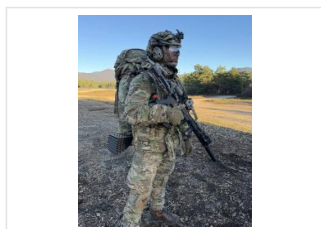

Modular medical insert. Designed for our Large GP and XL GP but will fit any 200rd SAW pouch or similar 4 column wide GP.

Made from Curv Tactical composite. Includes shock cord.

Can be resized by cutting the panel smaller with scissors

L4 PERFORMANCE

L4 X EURMED IFAK INSERT

l4performance.com/p37139/l4-x-eurmed-ifak-insert

Designed to fit M4 double mag pouch.

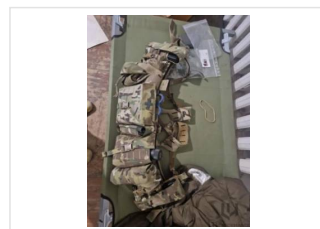

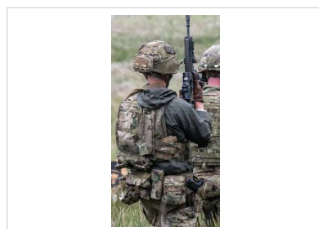

Customizable interior.

Cheat sheet with MARCH, shock symptoms and Nato 9 line included.

No med supplies included.

Designed with

NIR-compliant materials.

LARGE IFAK

l4performance.com/p37140/large-ifak

IFAK edition of our Large GP pouch.

Velcro on front for a IFAK patch.

Included TQ pouch can be attached to either side.

Modular insert allows attaching items for both sides with shock cord (included).

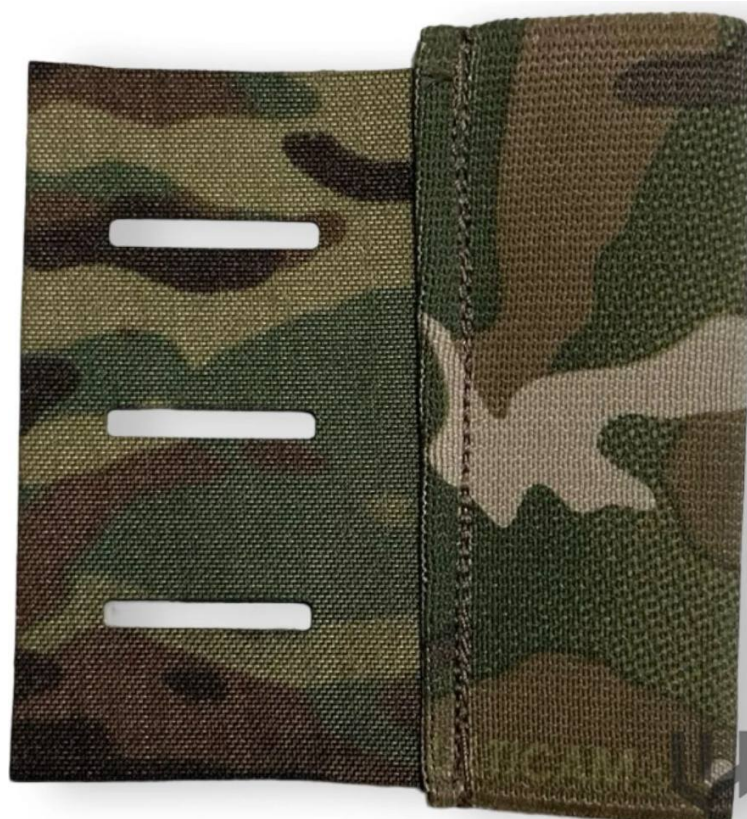

4 rows wide molle attachment. Interior lined with velcro for different inserts.

As our L4P x EURMED IFAK Insert is made for self help, the Large IFAK is meant to be used as a buddy ifak.

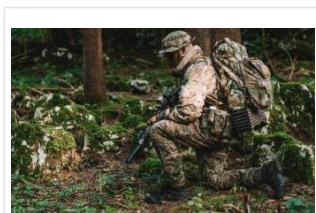

Will work as a general purpose pouch also.

No meds or TQ included.

NIR-compliant materials.

L4 PERFORMANCE

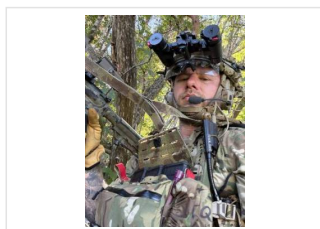

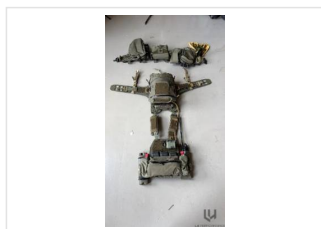

MOLLE TQ SLEEVE

l4performance.com/p37141/molle-tq-sleeve

Attach elastic TQ pouch to the side of any molle pouch, using the empty space between pouches.

Test TQ folding technique to ensure smooth operation.

NIR-compliant materials.

TQ MUD COVER

l4performance.com/p37142/tq-mud-cover

Tourniquet Mud Cover

Protect your tourniquets from mud, snow, and UV exposure with this lightweight, durable cover. Functions like a rain cover for TQs and can be used over your issued TQ pouch or standalone with the included ranger band.

INCLUDED COMPONENTS

Ranger band for standalone use

COMPATIBILITY & SETUP

Fits over standard issued TQ pouches

Can be used without a TQ pouch, secured by the included ranger band

Pull tab features a red X-Pac layer over the laminate that can be cut away if preferred

USE CASE

Keeps tourniquets clean and protected from the elements

Flexible for use on pouches or TQs directly attached to kit

SPECIFICATIONS

Lightweight, durable construction

NIR-compliant materials

Made in Finland

Lifetime guarantee

TQ POUCH

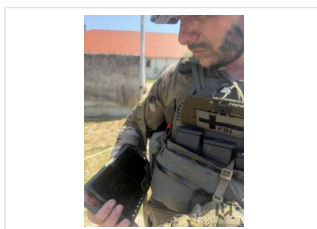

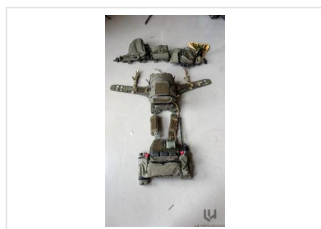

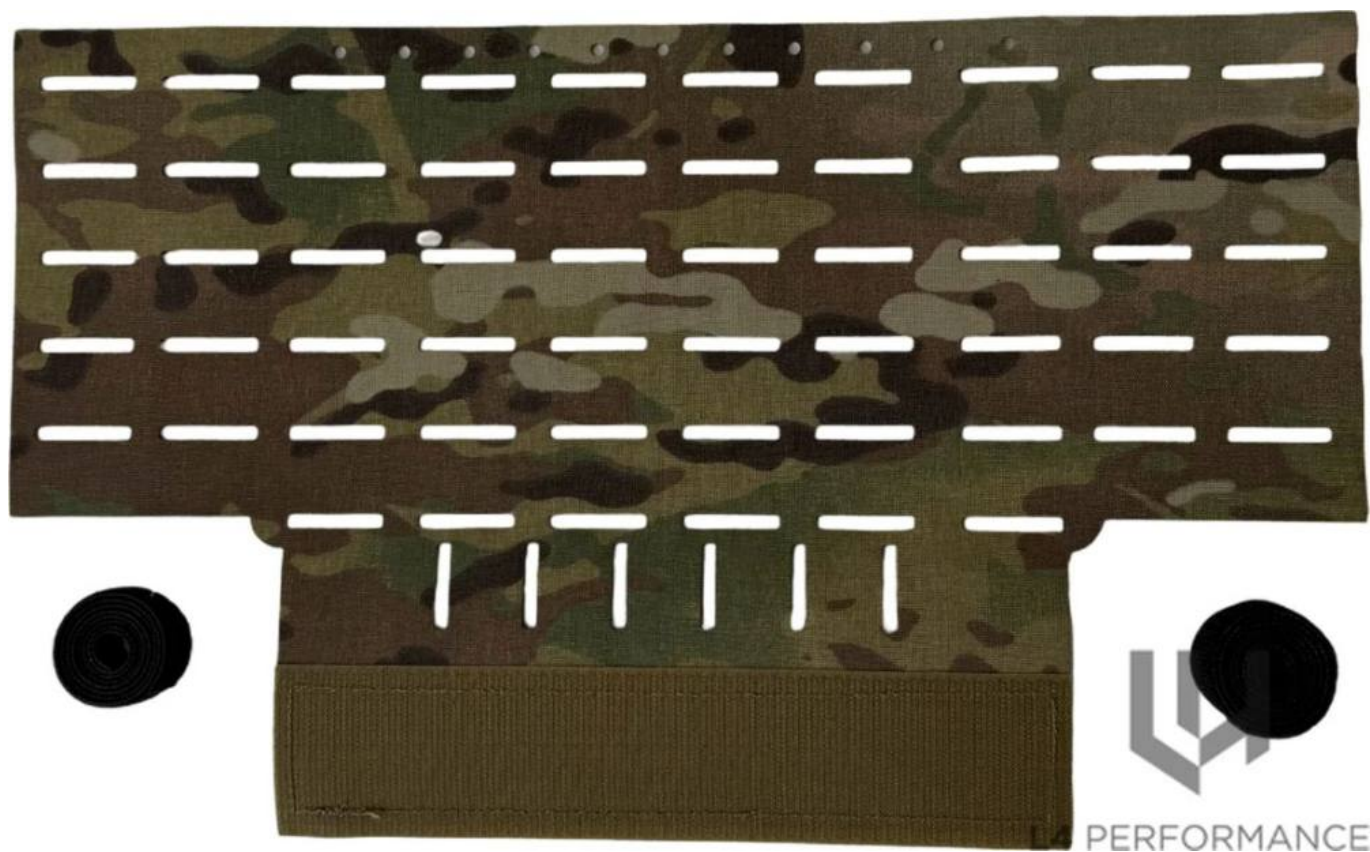

l4performance.com/p37143/tq-pouch

TQ pouch. Can be used with flap or open top. 1 row wide molle attachment.

PERFECT FOR

- bottom of WCSIG mag pouches
- shoulder strap of WCSIG
- shoulder strap of ARS Bravo
- bottom of ARS Tango
- side of ARS Tango

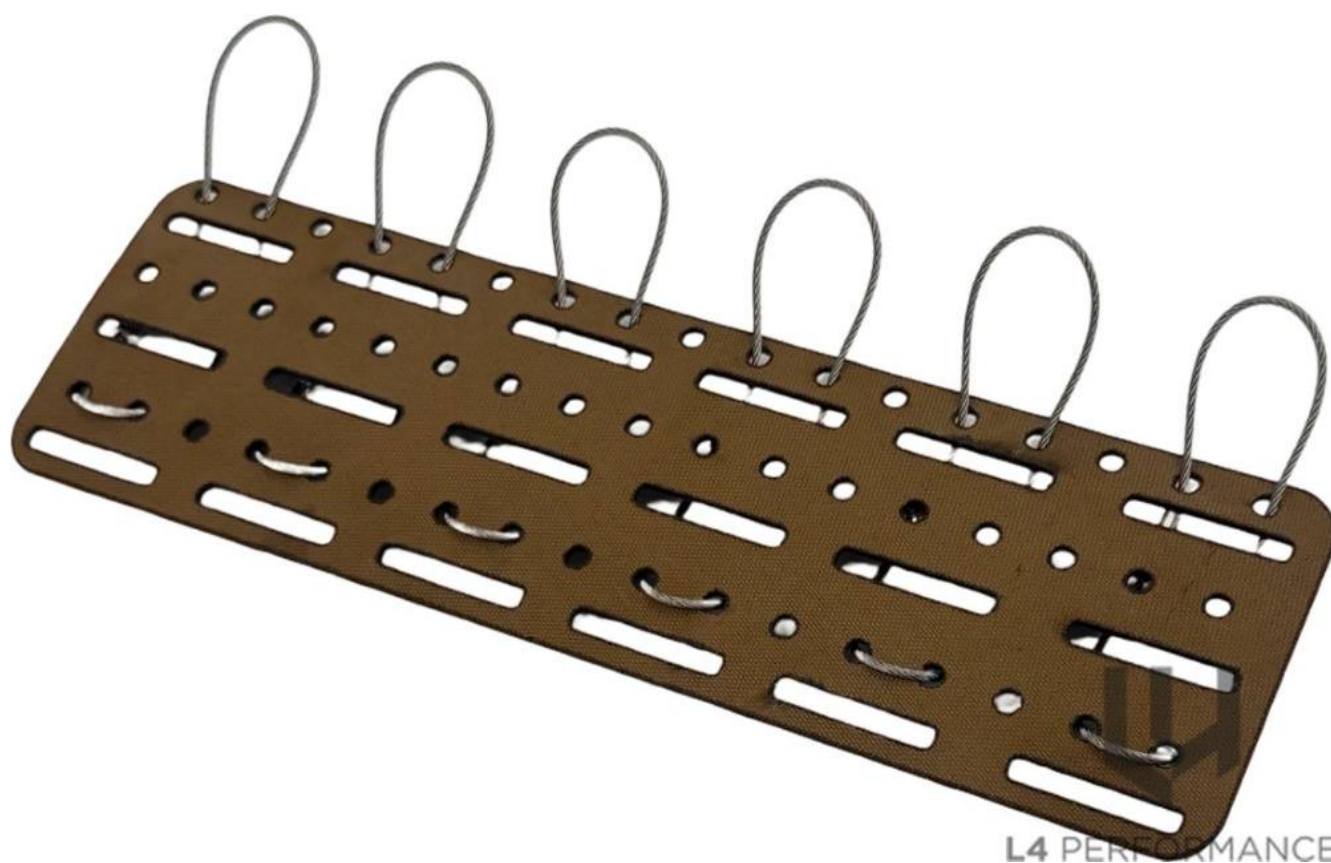

NIR-compliant materials.

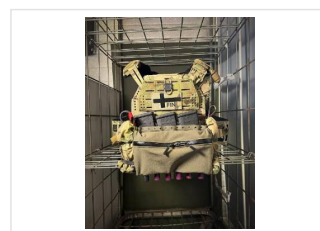

ATLAS PLACARD

l4performance.com/p37144/atlas-placard

Ultralight velcro placard. Compatible with Maritime L4PC, ATLAS plate career and hook/hook mag inserts

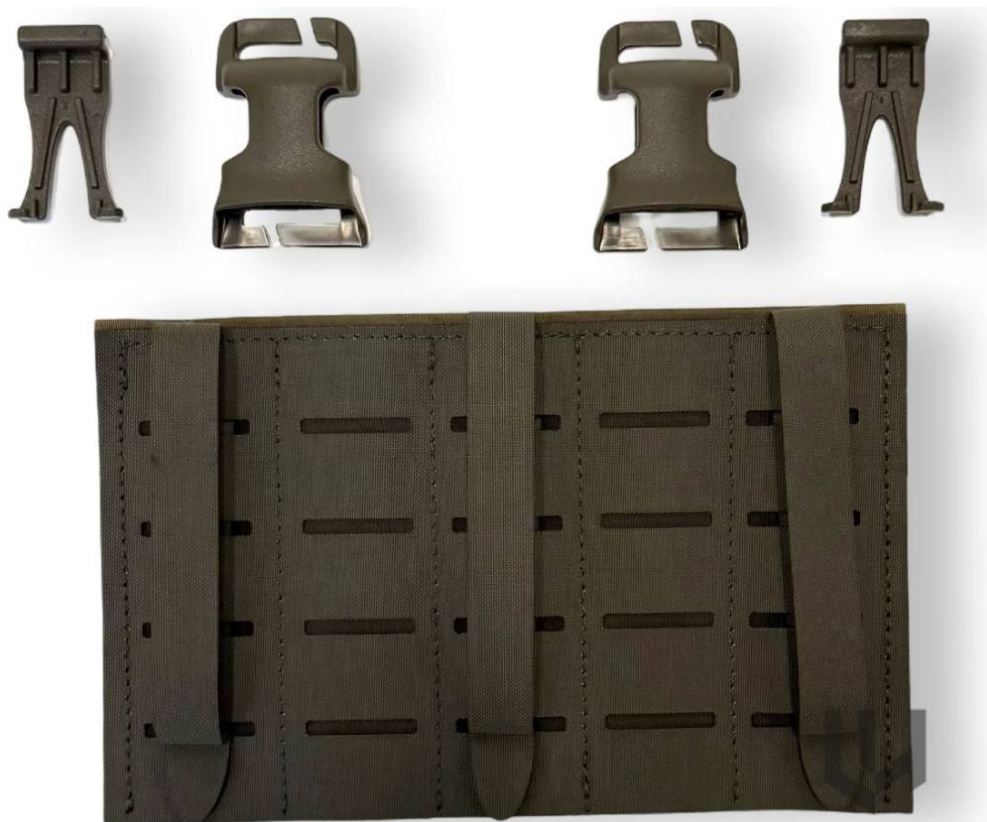

L4 PERFORMANCE

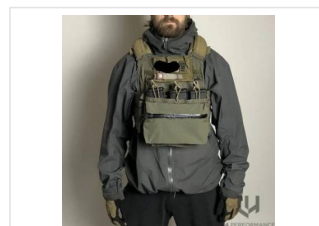

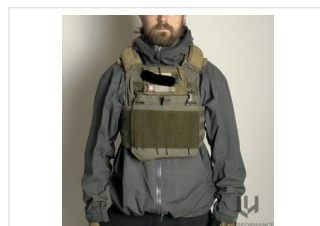

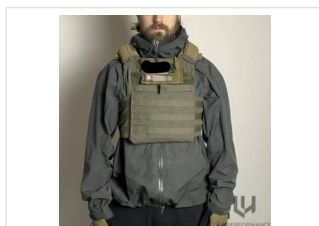

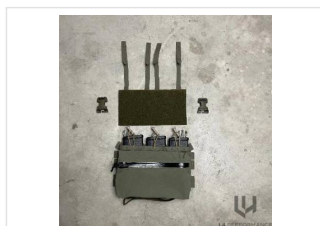

CPS-6 CHEMLIGHT PULL SYSTEM

l4performance.com/p37196/cps-6-chemlight-pull-system

CPS-6 Chemlight Pull System allows you to carry six chemlights on your kit. The system attaches in between PALS pouches and leaves the bottom of chemlights visible. Once you pull from the bottom, steel wire cuts through the chemlight plastic loop and chemlight releases.

L4 PERFORMANCE

MOLLE TO VELCRO ADAPTER

l4performance.com/p37146/molle-to-velcro-adapter

This adapter turns any molle surface to velcro surface.
Choose size, color and velcro surface for the adapter. For standard size placard 6-wide loop is the correct one.
Coyote brown for multicam carriers.

Add optional surface mount buckles for placard conversions: these add top buckle mounts and attach to both horizontal or vertical PALS.

NIR compliant materials.

L4 PERFORMANCE

PACKABLE UTILITY POUCH

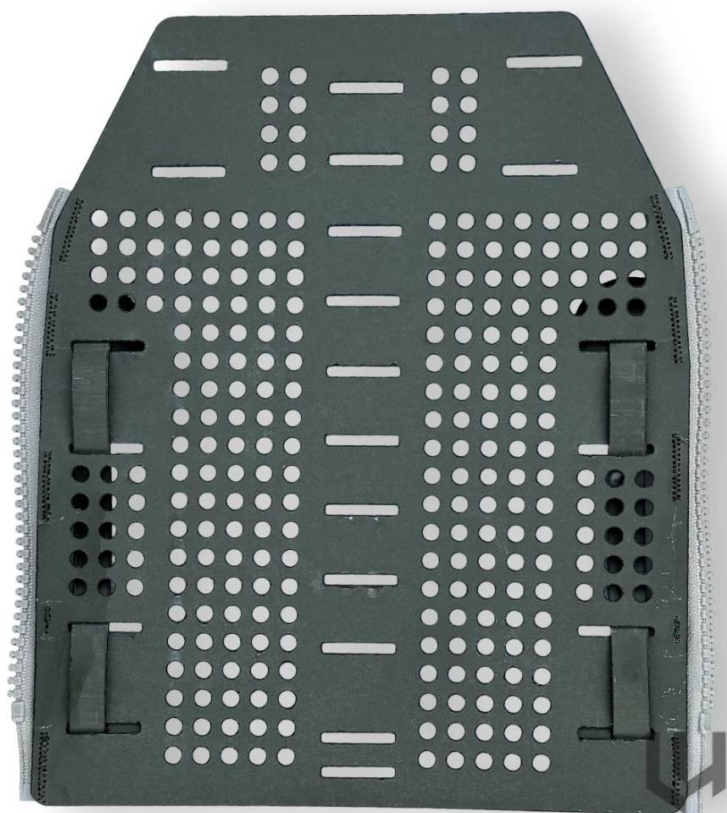

l4performance.com/p37147/packable-utility-pouch

Ultralight roll-top bag that allows ie organizing items inside a ruck while doubling as a SSE pouch.

Wide enough for layering items in a ~110l ruck (clothing on this, sleeping kit under it and water etc over it -> your stuff won't get mixed and reaching bottom items is easy by pulling this out)

Available only in Multicam

DWR fabric (water resistant)

L4 PERFORMANCE

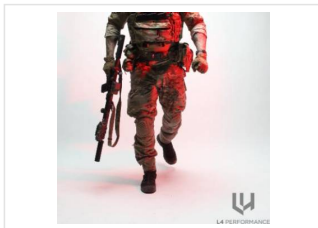

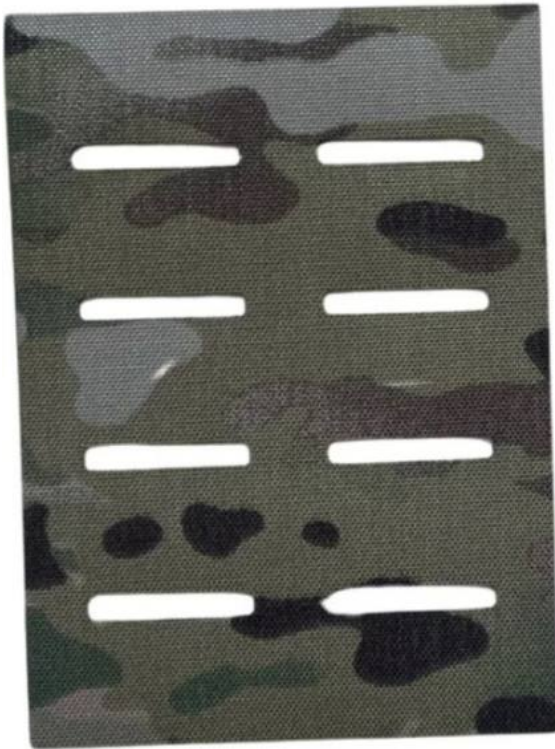

TURTLE REAR BAG KIT

l4performance.com/p37148/turtle-rear-bag-kit

This kit transforms your turtle to a stand alone rear plate bag. Compatible with Maritime L4PC, ATLAS, AVS and other carriers that use velcro shoulder strap attachment + Crye standard cummerbund. Will work with Crye back panels. UCAS panels attach but due to different zipper length there is some overhand:

INCLUDES/

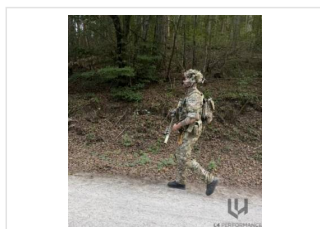

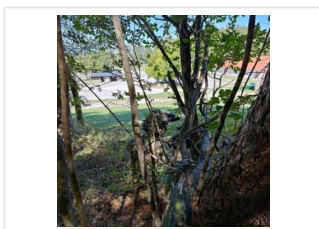

- composite main component
- optional structural velcro shoulder strap kit (not pictured)
- ATLAS and AVS attachment kit (not pictured)

TW DROP MOUNT

l4performance.com/p37149/tw-drop-mount

Drop mount a pouch below a molle pouch.
vertical (left) and horizontal (right) mounting options.
NIR-compliant materials.

UL HELMET SKRIM

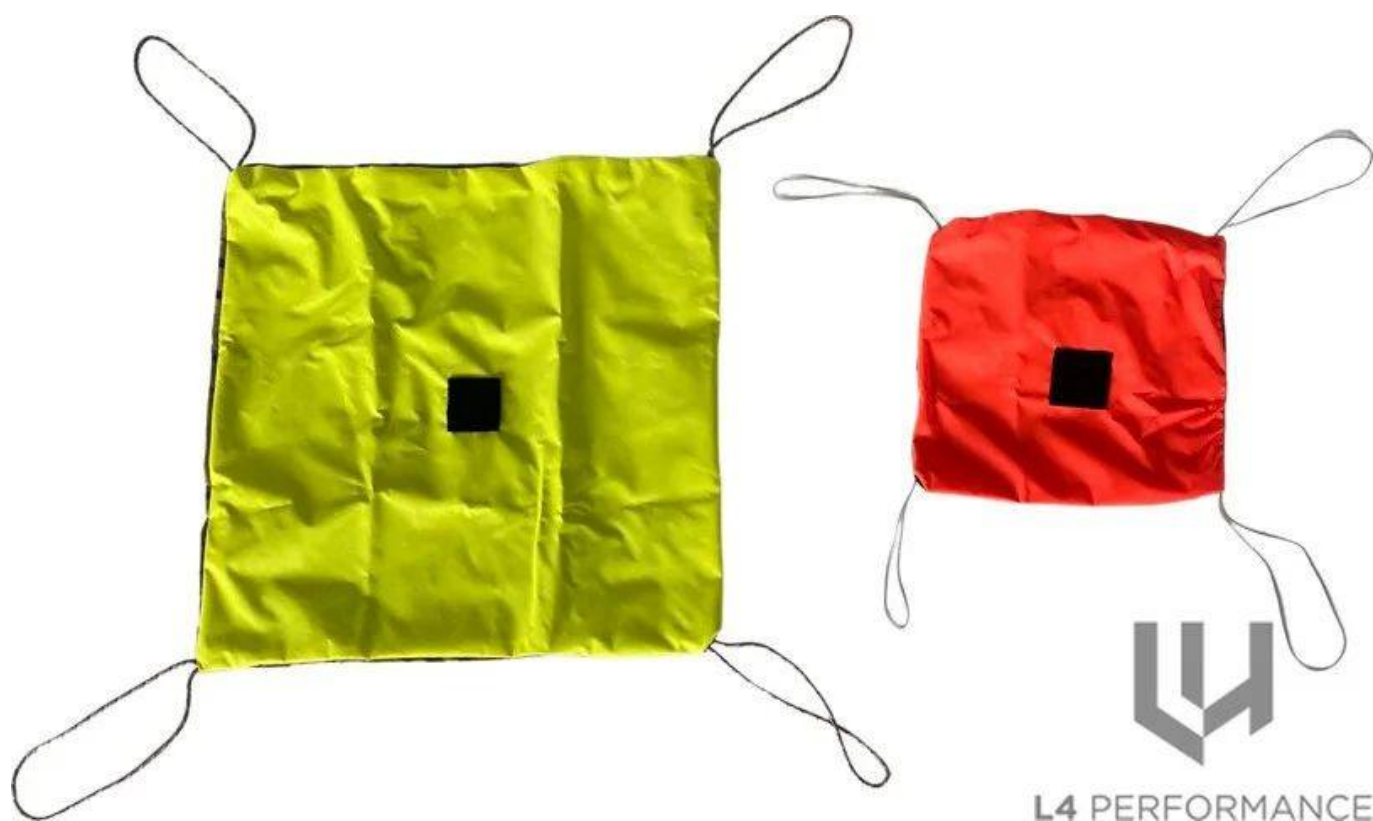

l4performance.com/p37150/ul-helmet-skrim

Ultralight helmet skim for high cut helmets.

Weight 22g

Real Tree camo is not NIR-compliant

Skrim is made from UL materials and will tear when caught in branches and such (better to tear than to get stuck on a branch by your helmet). This does not fall under our lifetime guarantee.

UL SIGNAL PANEL

l4performance.com/p37151/ul-signal-panel

Visible panel in multicam/orange. Packs into its own pocket and 30x30 fits in the calf pouch of Crye combat pants.

One side has velcro opening so that you can place rocks or sand inside the panel as a weight when the panel is placed on the ground.

4 attachment loops for securing the panel for example to the lid of a backpack. This way you can also use it as a beavertail for helmet storage.

50x50 weight 50g

**L4 PERFORMANCE**

VELCRO DROP MOUNT

l4performance.com/p37153/velcro-drop-mount

Drop a frag under your placard or tq to the side?

Velcro drop mount adds pals where needed.

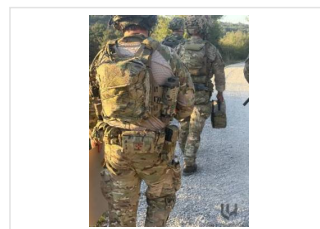

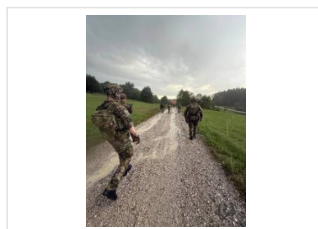

Bottom (left) or Side (right)

VELCRO ONE-WRAP

l4performance.com/p37154/velcro-one-wrap

Velcro ONE-WRAP for gear customization.

ZIPPER CLIP

l4performance.com/p37188/zipper-clip

Tired of back panel zippers opening on their own?

Secure them with Zipper Clip.

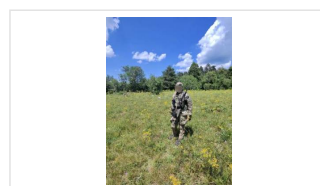

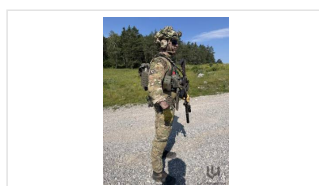

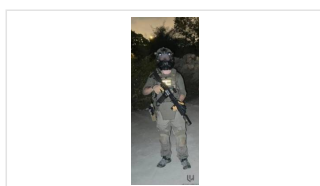

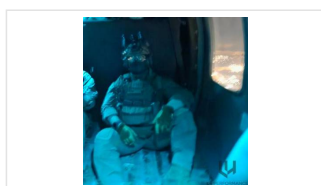

Attach Zipper Clip to your rear bag or back panel and secure the zippers.

Pack of 2.

Cheap DIY alternative: use paracord

L4 PERFORMANCE

HESTRA KOBOLT FR MIL MOD

l4performance.com/p37136/hestra-kobolt-fr-mil-mod

Flame-resistant, high-precision summer gloves. Modified for military applications by L4 in Finland with laser-cut carabiner attachment points. Constructed from durable leather and flameproof Nomex® from aramide, these are the go-to military gloves in the Nordics.

INCLUDED COMPONENTS

1 pair of Hestra Kobolt FR MIL MOD gloves

COMPATIBILITY & SETUP

Modified for military use by L4 in Finland

Laser-cut carabiner attachment points for securing to gear or jackets

USE CASE

Provides excellent fingertip sensitivity and protection against sparks or heat exposure

Suitable for high-precision tasks

SPECIFICATIONS

Fire-retardant assembly glove

Backhand in flameproof Nomex® from aramide

Thin, hardwearing, supple goatskin on palm for excellent grip

Reinforced fingers and thumb

Heat-resistant Kevlar thread

Elasticated wrist

Standards: EN388:3122X | EN407:4121XX

Made by Hestra, modified by L4 in Finland

Care Instructions

Treat leather with leather balm to maintain suppleness and durability
